

TULIP MOVES IN (11TH MAY 2020)

- Moved to Brackendale three weeks before
- Ensures new foragers when moved back to Brundall - so they don't return to the original hive location!
- Tulip is our oldest Queen with a red mark - 2 years old from 2018!

BLOSSOM (17TH MAY 2020)

- moved from our home apiary.
- less than 3 miles.
- moved at night.
- split from an artificial swarm.
