

*21st May 2020*

*Our 3rd colony was a swarm that Dad collected from St. William's primary school in Thorpe.*

## AND THEN.....

---

- Camellia and Wisteria moved in
- Blossom tried to swarm - but she can't fly due to a damaged wing so they came back! (17th June 2020)
- Tulip, Camellia and Wisteria all showed signs of wanting to swarm - so we made more artificial swarms!
